REFINING MACHINE

TWO-CYLINDER

- One or two-speed models
- Heavy duty, painted steel structure, mounted on wheels
- Hopper, collection basin and basin seat coating in stainless steel
- Scrapers can be easily removed for cleaning
- Perfectly ground porphyry cylinders are 30 cm. long and 15 cm. in diameter
- Hand wheel in the front to adjust the cylinder opening
- The rear cylinder oscillates on its horizontal axis in order to efficiently gather the product from the hopper, thereby improving the machine output
- Stainless steel scrapers are high in strength and can easily be replaced
- Long lasting cast-iron helical gears are mounted in an oil bath to keep the machine silent and highly efficient
- Refining cylinders can be adjusted to maintain the parallelism in between the two of them even after years of operation
- Stainless steel version available on request

Model		RA2
Cylinders length	cm.	30
Cylinders diameter	cm.	15
Power installed	Kw.	1,5
Weight	Kg.	208
A	cm.	114
B	cm.	70
C	cm.	63
D	cm.	47
